The Pillars of Celtic Cosmology

Celtic Cosmology rests upon three fundamental pillars:

- **Tree of Life:** The sacred tree, often depicted as an oak or ash, represents the axis mundi, connecting the heavens, the earth, and the underworld.
- **Sacred Geography:** The Celts believed that the land was imbued with spiritual significance. Places like hills, rivers, and groves were seen as

gateways to the Otherworld.

- **Seasonal Cycle:** The Celts revered the natural rhythms of the year. Festivals such as Samhain and Beltane celebrated the changing seasons and the interplay between the worlds.

Whispers of the Otherworld

The Otherworld, known as Annwn or Tir na nOg in Celtic lore, is a realm of enchantment and mystery. It is a parallel world that coexists with the physical world, accessible through various portals such as caves, wells, and ancient ruins.

Populated by supernatural beings like fairies, gods, and spirits, the Otherworld holds both allure and trepidation for those who dare to venture within its concealed boundaries.

Sacred Journeys and Quests
